

Tuesday, September 5								
12:10-12:30	Welcome & Conference opening							
12:30-13:50	Keynote: Prof. Dr. Karoly Takacs - Social Network Analysis and Analytical Sociology							
14:00-15:30	Organised sessions							
	FDV-6	FDV-7	FDV-12	FDV-13	FDV-14	FDV-20	FDV-21	FDV-23
	Negative Ties and Signed Graphs (1/2) Eva Jaspers, Filip Agneessens	Modeling Social Influence (1/2) Christian E.G. Steglich, Robert W Krause	Interpersonal networks and the COVID-19 pandemic (1/2) Fruzsina Albert, Beáta Dávid, Júlia Koltai	Networks, Culture, Interaction (1/2) Jan Fuhse, Nikita Basov, Camille Roth	Egocentric networks (1/2) Raffaele Vacca	Gender and social networks Elisa Bellotti	Agent-based models of social networks Federico Bianchi, Filip Agneessens, Andreas Flache, Károly Takács	Networks and knowledge production (1/6) Marina Hennig, Omar Shehata, Dominika Czerniawska, Luka Kronegger
	Jan-Willem Simons and Eva Jaspers. <i>Balance, Status, and Negative Tie Dynamics in A High Proximity Network Context</i>	Emily Long , Martin Anderson and Dylan Lewis. <i>Comparing peer leaders across different selection criteria: Insights from the ASSIST trial in the UK</i>	Marian Gabriel Hâncean , Juergen Lerner, Matjaž Perc, José Luis Molina and Marius Geantă. <i>Assortative mixing of opinions about COVID-19 vaccination in personal networks</i>	Katharina Burgdorf , Mark Wittek and Juergen Lerner. <i>Communities of Style: Artistic Transformation and Social Cohesion in Hollywood, 1930-2000</i>	Francisca Da Gama , Aleksandra Griazina and Bruce Cronin. <i>Language skills, social networks and outcomes for international MBA students</i>	Dorottya Hoor , Guy Harling, Vuyiswa Nxumalo, Nuala McGrath, Janet Seeley and Maryam Shahmanesh. <i>Gender dynamics of social support for adolescents and young adults in highly resource-constrained communities in rural South Africa</i>	Nigel van Herwijnen <i>An agent-based modeling approach to social cohesion</i>	Mark Batagelj <i>Analysis of bibliographic networks of scientific articles on handball</i>
	Alejandro Espinosa-Rada and Ivana Smokovic. <i>Group Effects for the Emergence of Structural Balance in Signed Networks</i>	Niccolò Armandola , Malte Doehne and Katja Rost. <i>Explaining Mobilization for a Coup d'État by Private Interests and Kinship Relations</i>	Adam Stefkovics , Anna Sára Ligeti, Júlia Koltai, Fruzsina Albert and Beáta Dávid. <i>Vaccination Homophily in Social Networks During the Covid-19 Pandemic</i>	Perczel Julia and Vedres Balazs. <i>GLOBALIZERS. Agents of Territory and Topology in the Global Art Field</i>	Ricardo Gonzalez , Esteban Munoz and Adolfo Fuentes. <i>Voices Unheard: Exploring the Absence of Discussants in Network Studies</i>	Freya Grimme <i>Networking behavior and Career Success- How do women use their social capital in formal networks?</i>	Beata Łopaciuk-Gonczyrk , Katarzyna Growiec and Bogumił Kamiński. <i>Mechanisms underlying personal network homophily - difference between the similarity in preferences & behaviors and the similarity in sociodemographic characteristics</i>	Irina A Pavlova <i>International dimension of Russian science in Sociology: bibliometric analysis</i>
	Vieri Pisticchi and Filip Agneessens. <i>Mechanisms that reinforce and counter religion-based subgroups in school classes: A longitudinal study of the network processes which involve the interaction between positive and negative ties</i>	Mona Grobe , Britta Wittner and Simone Kauffeld. <i>Social Networks of First Generation Students in Times of a Global Crisis: Social Support and Mental Health</i>	Jan Fuhse <i>Networks Are Like Rainbows</i>	Paul Schuler <i>The role of place and personal networks in the unequal availability of social support</i>	Katarzyna Growiec <i>Social Network Dynamics in the Context of Age and Gender: An Empirical Investigation</i>	Cristina Chueca Del Cerro and Jennifer Badham. <i>Organising network generators: a taxonomy of algorithm mechanisms and the properties of the generated networks</i>	Daria V Maltseva <i>Structures of collaboration in local scientific community: case of Russian sociologists</i>	
	Srebrenka Letina , Dylan Lewis, Paul Schuler and Mark McCann. <i>Investigating the effect of indirect negative ties</i>		Guillaume P Fernandez <i>A relational approach to adverb use</i>	Raffaele Vacca and Basak Bilecen. <i>Personal network inequalities between migrant generations: in search of explanations</i>	Jone Garcia Lurgain , Paula Peremiquel-Trillas, Khadija Mellouki, Andleeb Sharif, Joanna Busza and Guy Harling. <i>Social influence on Moroccan and Pakistani migrant women's access to health information for cervical cancer prevention in Spain: a qualitative social network analysis</i>	Alla Loseva , Andreas Flache, Christian EG Steglich, Michael Mäs and Sabine Otten. <i>Predicting a SPiral of mutually reinforcing negative OUTgroup attitudes (SPIN-OUT) in multiethnic classrooms</i>	David Dekker and Dimitris Christopoulos. <i>Temporal equivalence of structures: comparing patent citation and investors' syndication in technology subdomains</i>	

Tuesday, September 5							
15:30-15:50	Coffee						
15:50-17:20	Organised sessions						
	FDV-6	FDV-7	FDV-12	FDV-13	FDV-14	FDV-20	FDV-23
	Negative Ties and Signed Graphs (2/2) Eva Jaspers, Filip Agneessens	Modeling Social Influence (2/2) Christian E.G. Steglich, Robert W Krause	Interpersonal networks and the COVID-19 pandemic (2/2) Fruzsina Albert, Beáta Dávid, Júlia Koltai	Networks, Culture, Interaction (2/2) Jan Fuhse, Nikita Basov, Camille Roth	Egocentric networks (2/2) Raffaele Vacca	Teaching Social Network Analysis Yasaman Sarabi, Matthew Smith, Riccardo De Vita, Guido Conaldi	Networks and knowledge production (2/6) Marina Hennig, Omar Shehata, Dominika Czerniawska, Luka Kronegger
	David Dekker , David Krackhardt and Patrick Doreian. <i>Balance Theory, Microstructures, and World Order: The Structure of 150 Years of War and Peace among European Nations</i>	Tomas Lintner <i>Social selection and influence among lower-secondary students in relation to classroom communication and literacy</i>	Yang-chih Fu <i>Detecting Active Networks with Contact Diaries during the Covid-19 Pandemic: Findings, Advantages, and Limitations</i>	Telmo Menezes , Antonin Pottier and Camille Roth. <i>The two sides of the Environmental Kuznets Curve: A socio-semantic analysis</i>	Isidro Maya Jariego , Deniza Alieva, Elena González Tinoco, Daniel Holgado Ramos and Fran Santolaya. <i>Describing the relationship of the structural properties of personal networks with the psychological sense of community in the neighborhood</i>	Yasaman Sarabi <i>Teaching Social Network Analysis to Independent Distant Learners</i>	Susanna Zaccarin , Domenico De Stefano, Amin Gino Fabbucci Barbagli and Francesco Santelli. <i>Co-authorship and scientific productivity: updated evidence on Statistics scholars in Italy</i>
	Eva Jaspers <i>Difficult alters across Europe - evidence from a new survey</i>	Imelda S Caleon , Rui Xiang Tan, Wei Xun Koh, Wei Cheng Liu, Fan Yunge and Melvin Chan. <i>The Influence of Close Friendship among Differentially Motivated Adolescent Dyads on School Engagement: An Actor-Partner Interdependence Model Approach</i>	Zoltan Brys , Fruzsina Albert, Bea David, Gerdan Mercedesz and Marton Czermann. <i>Simulating Covid-19-vaccination discussion network of Hungary based on egocentric survey data</i>	Nikita Basov , Robert L Hellpap, Irina Kretser, Artem Antonyuk and Ksenia Puzyreva. <i>Non-Binary Cultural Diffusion: Statistical Modelling of Interaction Between Semantic Networks</i>	Liz Weiler , Betina Hollstein and Michael Windzio. <i>Reciprocal Valuation of Social Milieus: Lines of Conflict and Alliances</i>	Christina Prell, Isabella Gollini, Juergen Lerner and Riccardo De Vita. Round table: The Future of Teaching SNA	Nataliya Matveeva <i>Co-authorship networks of leading young universities: is the structure similar?</i>
	Brigitta Németh and László Lőrincz. <i>Gender differences in how social capital is related to negative ties in Academia</i>	Ivana Smokovic , Christoph Stadtfeld and Timon Elmer. <i>Using a multi-outcome and multiplex network lens to study social influence processes in a student population</i>	Dora Boelens and Eva Huszti. <i>Changes in the acculturation strategies of foreign youth living in Hungary during Covid-19 from a network approach</i>	Xinwei Xu , Alessandro Lomi and Christoph Stadtfeld. <i>The Dual Clustering of Tastes and Ties: Network Motifs for Cultural Consumption</i>	Daria Panebianco , Alessio D'Angelo and Andrea Maccarini. <i>Mapping young migrants' support networks in the context of Life-Long-Learning interventions</i>	Continuing roundtable	Robert Panitz and Lin Zou. <i>The formation of co-patent and co-publication networks in Chinese regional systems of innovation</i>
				Annabell Schübler and Jan Fuhse. <i>The Duality of Ties and Attributes in School Classes</i>		Continuing roundtable	Darkhan Medeuov and Adil N Radionov. <i>Strategic coauthorship: Prior coauthorship predicts successful funding in Kazakhstani academia</i>
20:00-	Hospitality Suite (Aula Cafe)						

Wednesday, September 6

9:00-10:30

Organised sessions

	FDV-6	FDV-7	FDV-12	FDV-13	FDV-14	FDV-20	FDV-21	FDV-23
	Networks and crime (1/2) Tomáš Diviák, Paolo Campana, Peter Carrington	Modeling Network Dynamics (1/4) Robert W Krause, Christian E.G. Steglich	Political Networks (1/2) James Hollway, Christina Prell, Mario Diani	Family networks and personal networks through the life-course (1/3) Vera de Bel, Marlène Sapin, Vacchiano Mattia, Eric Widmer	Hypergraphs for complex systems: methods and applications Giancarlo G. Ragozini, Maria Prosperina Vitale, Giuseppe Giordano	Spatial networks Gil Viry	Social media, online networks (1/2) Juergen Pfeffer	Networks and knowledge production (3/6) Marina Hennig, Omar Shehata, Dominika Czerniawska, Luka Kronegger
	Miriam Schirmer , Tom Kirchmaier and Juergen Pfeffer. <i>Analysing and visualising criminal career pathways</i>	Fabio Vieira , Joris Mulder and Roger Leenders. <i>A simple algorithm for inferential updates on relational-event data streams</i>	Hans Hellsmark <i>Mission-oriented innovation for reaching net zero emissions from heavy industry: analysing the role of main emitters in a policy-driven Swedish R&D networks</i>	Elisa Tambellini , Anna Rotkirch and Mirkka Danielsbacka. <i>Transition to Widowhood and Subjective Wellbeing: The Buffering Effects of Social Networks</i>	Caterina De Bacco , Martina Contisciani, Nicolò Ruggeri and Federico Battiston. <i>Flexible and efficient probabilistic generative models for Hypergraphs with community structure</i>	Gil Viry <i>Analysing the geography of young people's personal networks in Switzerland</i>	Laszlo Lorincz <i>Do Diversity and Context Collapse Kill an Online Social Network?</i>	Britta Wittner , Sarah Bär and Simone Kauffel. <i>Combined Capital – Integrating Bourdieus' forms of capital, social networks and psychological research to analyse students' university success</i>
	Harald Sick , Pablo Jost, Maik Fielitz, Hendrik Bitzmann and Michael Schmidt. <i>Follow the Money: Tracing the Role of Cryptocurrencies in Financing the German Far-Right, the Anti-Vax 'Querdenken' Movement and Conspiracy Theorist Scene on Telegram</i>	Gonzalo Franetovic and Arturo Bertero. <i>Modeling, estimating, and simulating: formalizing attitudes towards inequality as a complex network</i>	David Melamed and Brent Simpson. <i>Reputation, Cooperation, and the Emergence of Political Segregation in Networks</i>	Willem Vermeulen and Marjolijn Das. <i>You as well? Separation of Couples and the Prevalence of Union Dissolution in Their Social Network</i>	Giancarlo G Ragozini , Roberto Rondinelli and Maria Carmela Schisani. <i>Measuring the assortativity in two-mode networks</i>	Christoph Zangger <i>Of "good" and "bad" neighbors. Examining cross-pressures on political participation in neighborhood networks across spatial contexts</i>	Alan Shaw <i>How to analyse research data that was captured using commercial social listening APIs with Latent Dirichlet Allocation Topic Modelling to support your Social Network Analysis</i>	Marjan Cugmas , Franc Mali and Luka Kronegger. <i>The patterns of scientific collaboration between the doctoral students and their mentors</i>
	David Bright <i>Network dynamics of Outlaw Motorcycle Gang co-offending networks: The utility of relational hyper event models</i>	Edoardo Filippi-Mazzola and Ernst C Wit. <i>A Deep Relational Event Additive Model for modeling patent citations</i>	Olga Ganjour , Eric Widmer and Marta Roca i Escoda. <i>Same-sex family networks in Switzerland: inclusive or exclusive?</i>	Nicola Pronello , Emiliano del Gobbo, Lara Fontanella, Luigi Ippoliti, Rosaria Ignaccolo and Sara Fontanella. <i>Spatio-temporal changes in the Twitter Brexit debate: a functional graphical model approach</i>	Kristian G Kjellmann <i>Swamps and Sluices: Mechanisms of Internal Re-migration Flows of First-Generation Immigrants in Denmark</i>	Anahit Sargsyan and Juergen Pfeffer. <i>Arabizi on Twitter: Uncovering Hidden Patterns in Personal Networks through Hybrid Language Usage</i>	Sara Atanasova , Katja Koren Ošjak and Luka Kronegger. <i>Perspectives of mentors and mentees on the impact of mentoring relationship characteristics on knowledge production in higher education and science</i>	
		Kristijan Garic , Philip Leifeld and Kimberley Vandenhole. <i>Application of Stage Dynamic Detection for Detecting Community Changes in Temporal Networks</i>	Vera de Bel , Alyona Artamonova, Mirkka Danielsbacka and Antti Tanskanen. <i>Parenthood status of horizontal kin and entry into parenthood. A horizontal kinship network approach</i>	Vincenzo G Genova , Giuseppe Giordano, Giancarlo G Ragozini and Maria Prosperina Vitale. <i>From Multimode Networks to Hypergraphs. A procedure for network projection, simplification and filtering</i>	Laura Prota <i>A network analysis of food aids and food waste in Rome</i>	Wienke Strathern and Juergen Pfeffer. <i>Mapping social interactions in online communication conflicts</i>	Siyu Jiang and Christoph Stadtfeld. <i>STEM Undergraduate Students' Social Integration and Its Impact on Students' Academic Achievement</i>	
10:30-10:50	Coffee							

Wednesday, September 6								
10:50-12:20	Organised sessions							
	FDV-6 Networks and crime (2/2) Tomáš Diviák, Paolo Campana, Peter Carrington	FDV-7 Modeling Network Dynamics (2/4) Robert W Krause, Christian E.G. Steglich	FDV-12 Political Networks (2/2) James Hollway, Christina Prell, Mario Diani	FDV-13 Family networks and personal networks through the life-course (2/3) Vera de Bel, Marlène Sapin, Vacchiano Mattia, Eric Widmer	FDV-14 Multilayer and feature-rich networks Maria Prosperina Vitale, Matteo Magnani, Roberto Interdonato, Giuseppe Giordano, Giancarlo G. Ragozini	FDV-20 Organizational networks (1/4) Viviana Amati, Francesca Pallotti	FDV-21 Social media, online networks (2/2) Juergen Pfeffer	FDV-23 Networks and knowledge production (4/6) Marina Hennig, Omar Shehata, Dominika Czerniawska, Luka Kronegger
	Johan H Koskinen , David Bright, Chad Whelan, David Kernot, Callum Jones, Giovanni Sadewo and Shandon Harris-Hogan. <i>The growth and contagion of homegrown terrorism in an ecological setting</i>	Alvaro Uzaheta , Viviana Amati and Christoph Stadtfeld. <i>Content Niches & Social Interactions on Online Platforms: A Framework based on SBM and DyNAM</i>	Daniel Matter and Juergen Pfeffer. <i>From Pizzagate to the Reichstag: the Coevolution of QAnon and Querdenken on German Telegram</i>	Vida Česnuitytė <i>Changes in personal networks when becoming the transnational family</i>	Laszlo Lorincz <i>Business transactions and ownership ties between firms</i>	Claudia Zucca , Kathryn Skivington and Mark McCann. <i>A complexity science approach to measure "joined up working": Collaboration networks for substance use, sexual health and blood borne virus service provision</i>	Angelina Mooseder , Sophie Brandt, Fabian Putterer, Andreas Frings and Juergen Pfeffer. <i>Don't You 'Like' Me? Negative Psychological Impact of Rejection on Social Media</i>	Bruce Cronin , Diane Hird and Nina Ockendon-Powell. <i>Combining Online and Offline for Scientific Collaboration</i>
	Logan S Leford and Marie Ouellet. <i>The Influence of Police Officer Networks on Perceived Audience Legitimacy</i>	Tom AB Snijders <i>Goodness of Fit for Multilevel Dynamic Network Models</i>	Sebastian Haunss <i>Protest Networks</i>	Myriam Girardin , Eric Widmer and Oana Ciobanu. <i>Do conflict structures of family networks matter for loneliness in later life? The case of a cohort of Swiss older adults</i>	Martina Contisciani , Marius Hobbhahn, Philipp Hennig and Caterina De Bacco. <i>Flexible inference in heterogeneous and attributed multilayer networks</i>	Dumitru Malai <i>Collaboration and proximity. The influence of different forms of proximity on the collaborative network of projects in teacher education</i>	Marina Hennig and David Schoch. <i>Networks of lateral thinkers during the Corona pandemic</i>	Riccardo De Vita <i>Connecting the dots in International Branch Campuses research: A Social Network Analysis approach</i>
	Tomáš Diviák <i>White-Collar Crime and Networks over Time: Understanding Relational Events Dynamics in Corruption Networks</i>	Sergio Buttazzo <i>LASSO Regularization for Exponential Random Graph Models</i>	Daniel P Platek <i>Towards pillarization? Networks of coalitional protests in Poland, 2020</i>	Oana Ciobanu , Olga Ganjour, Sarah Ludwig-Dehm and Iuna Dones. <i>Social network configurations and life satisfaction in old age: A comparison of Italian migrants and natives in Switzerland</i>	Margherita Criveller , Flaminio Squazzoni and Federico Bianchi. <i>Kinship and conflicts between mercenary families and regional states from the 15th to the 16th century in Italy. A multiplex network study</i>	Alvaro Pina Stranger and German Varas. <i>Building up "social" and "epistemic" status: the case of entrepreneurs in the French biotech industry</i>	Ilija Andreevich Karpov <i>NLP meets SNA - Injecting Social Network Knowledge to Language Models</i>	Oliver Wiecek , Olof Hallonsten and Fredrik Åström. <i>Does management and organization studies consist of microtribes?</i>
			Mario Diani <i>Multimodal networks in collective action episodes</i>	Hai Ha Nguyen and Laura Koehly. <i>The role of grandparents in support networks</i>			Renata Hosnedlova , Guillaume Favre and Julien Figeac. <i>Online social life and offline social life: two disconnected worlds?</i>	Dominika Czerniawska <i>Policy driven change of scientific networks. Human Brain Project and neuroscience</i>
12:20-13:30	Lunch time & Business meeting							

Wednesday, September 6								
13:30-15:00	Organised sessions							
			FDV-12 Social networks and health (1/3) Guy Harling	FDV-13 Family networks and personal networks through the life-course (3/3) Vera de Bel, Marlène Sapin, Vacchiano Mattia, Eric Widmer	FDV-14 Networks in history and archaeology (1/3) Paolo Cimadomo, Maria Carmela Schisani, David Zbíral	FDV-20 Organizational networks (2/4) Viviana Amati, Francesca Pallotti	FDV-21 Networks, practices, and beliefs: relational and neo-structural approaches to institutional processes Johannes Glückler, Emmanuel Lazega	FDV-23 Networks and knowledge production (5/6) Marina Hennig, Omar Shehata, Dominika Czerniawska, Luka Kronegger
			Mark McCann <i>Individual, situational, and social network perspectives on sources of worry in adolescence</i>	Florian König , Betina Hollstein, Hai Ha Nguyen and Laura Koehly. <i>Analyzing multi-informant network data with interpretative methods</i>	Alberto Rinaldi , Erica Salvaj, Susie Pak and Daniel Halgin. <i>Research themes, databases and network analysis in business history</i>	Michael Benzinger , Juergen Pfeffer and Lukas Zenk. <i>Dynamic Network Analysis of organizational communication structures during a post-merger integration</i>	Marius Zipf , Jakob Hoffmann, Johannes Glückler, Tamar Khuchua, Francois Lachapelle and Emmanuel Lazega. <i>Does federation imply fragmentation? A network analysis of decision citations in the German legal field of patent litigation</i>	Cigdem Baskici and Yunus Gokmen. <i>Semantic Relationship Between Keywords: Applying DPRel, HeteSim, and PathSim Algorithms on "Network Analysis and Big Data" Literature</i>
			Dylan Lewis , Srebrenka Letina, Emily Long and Mark McCann. <i>School connectedness and adolescent mental health</i>	Leonie Diffené and Charlotte C Becker. <i>Family Solidarity in the Kinship Network: Examining Differences Between Immigrants and Non-Immigrants</i>	Tihana Kuster <i>Premodern sales and conflict networks: developing a proper database model and extracting missing data from highly unstructured historical sources</i>	Timo Damm <i>Fractals Beyond Hierarchy - Analysing the Temporal Patterns of Interaction Networks in a French Public Sector Organisation</i>	Jakob Hoffmann , Johannes Glückler, Tamar Khuchua, Francois Lachapelle, Emmanuel Lazega and Marius Zipf. <i>Collegial decision-making in specialized courts: Does judge familiarity lead to more decisive outcomes?</i>	Matthew Smith and Bruce Cronin. <i>Topic Modelling – An Analysis of SNA & Network Science</i>
			Heike Krüger and Thomas U Grund. <i>Dual perspectives in social support relationships</i>	Marlène Sapin and Stéphanie Baggio. <i>Patterns of resources and strains in family networks: Some evidence of cumulative inequality in life course health</i>		Annatina Aerne <i>Referral networks among employers</i>	Daniel Wagner , Jakob Hoffmann and Johannes Glückler. <i>Innovation Cooperation in the Bioeconomy: A Network Analysis of the Innovation Space BIOTEXFUTURE</i>	Annalina Sarra , Lara Fontanella, Maïla Pentucci, Ida Esposito and Giovanna Cioci. <i>Using Psychometric Networks to Explore the Relationship Between Teacher Burnout and Technology Use: A Survey of Educators Across Different Schools and Grade Levels</i>
				Vera de Bel and Eric Widmer. <i>Positive, negative and ambivalent dyads and triads with family and friends: A personal network study on how they affect young adults' well-being</i>		Birgit Pauksztat and Michelle Grech. <i>With a little help from ... whom? Personal support networks in a hierarchical, multinational context</i>		Adnan Bashir <i>Investigating Financial Behavior Through Self-control: Accessing the Role of Financial Literacy and Mental Accounting</i>
15:00-17:00	Poster & coffee session							
19:00-21:00	Conference dinner (Vivo)							
20:00-	Hospitality Suite (Aula Cafe)							

Thursday, September 7							
9:00-10:30	Organised sessions						
	FDV-7 Modeling Network Dynamics (3/4) Robert W Krause, Christian E.G. Steglich	FDV-12 Social networks and health (2/3) Guy Harling	FDV-13 REDES panel: promoting collaboration and new studies in the community (1/2) Francisca Ortiz, José Luis Molina, Isidro Maya Jariego		FDV-20 Organizational networks (3/4) Viviana Amati, Francesca Pallotti	FDV-21 Blockmodeling, community detection and network partitioning (1/2) Aleš Žiberna, Vladimir Batagelj, Carl Nordlund	FDV-23 Networks and knowledge production (6/6) Marina Hennig, Omar Shehata, Dominika Czerniawska, Luka Kronegger
	Daniel Gotthardt <i>Looking beyond the local neighborhood – Analyzing less-localized processes of organizational fields in dynamic networks</i>	Elena González Tinoco , Srebrenka Letina and Isidro Maya Jariego. <i>Connecting Ego-nets Typologies with Adult Attachment Styles</i>	Ruben Juste De Ancos <i>¿Have the pandemic lead to a political or economic sovereignty era? Evidence from global networks of capital and interlocking directors</i>		Thomas Teekens , Francesca Giardini and Rafael Wittek. <i>Shared Understanding and Task-Interdependence in Interdisciplinary Collaborations in Internship Networks</i>	Aleš Žiberna <i>Some considerations when approaching blockmodeling of dynamic networks</i>	Iasonas Lamprianou <i>Rating, Coding and Ranking: Evaluating the Reliability of Human Judgment using graph theory and ERGMs</i>
	Giuseppe Arena , Joris Mulder and Roger Leenders. <i>Memory in relational event networks: a closer look at real case studies</i>	Elisa Bellotti and Federico Bianchi. <i>Social influence in the adoption of mosquito bites preventive measures in Meghalaya, India: Exploring policy interventions through an empirical agent-based model</i>	Joan M Verd , Joan Rodríguez-Soler, Alejandro González Heras and Oriol Barranco. <i>Characterising the personal networks of young people in Spain. What are the differences according to sociodemographic features?</i>		Steffen Triebel , Andrew Parker, Christian Waldstrom and Susanne Braun. <i>The coevolution of leader effectiveness and advice seeking networks</i>	Marjan Cugmas and Aleš Žiberna. <i>Comparison of blockmodeling approaches for dynamic networks with newcomers and departure nodes by Monte Carlo simulation</i>	Julian Müller and Alessandro Lomi. <i>The Changing Landscape of Knowledge Production: A Blockmodel Analysis of Research Projects in Switzerland</i>
	Juergen Lerner , Gabriel Hancean and Alessandro Lomi. <i>Modeling the co-evolution of collaboration and references to prior work: RHEM for networks of polyadic, mixed two-mode events</i>	Maedeh MAK Aboutalebi Karkavandi , Maedeh Aboutalebi Karkavandi, Colin Gallagher, Eva Kyndt, Giovanni R P Sadewo and Dean Lusher. <i>A Systematic Review of Antecedents of Academic Achievement and Student Psychological Wellbeing from A Social Network Perspective</i>	Verónica de Miguel-Luken and Joaquín Recaño-Valverde. <i>Dynamics of international migration networks of Spaniards living abroad</i>		Viviana Amati and Anna Moretti. <i>Determinants of cooperation among hotels in Venice: an ERGM approach</i>	Fabio Ashtar Telarico and Aleš Žiberna. <i>Dynamic blockmodel of Slovene co-authorship networks (1991-2020)</i>	Laura Mehner and Simone Kauffeld. <i>Changes in knowledge networks through training</i>
	Stepan Zaretckii , Tom AB Snijders, Christian EG Steglich and Marijtje AJ van Duijn. <i>The model of dynamic cohesive subgroups</i>	Julie Riddell , Daniel Archambault, Kathryn Skivington, Srebrenka Letina, Emily Long and Mark McCann. <i>Gathering, drawing and using social networks: A review of network methods on data collection, visualisation and interventions</i>	Francisca Ortiz <i>Dynamics through the time of care and social support networks of older people</i>			Vladimir Batagelj <i>Cores in multiway networks</i>	
10:30-10:50	Cofee						

Thursday, September 7								
10:50-12:20	Organised sessions							
	FDV-7 Modeling Network Dynamics (4/4) Daria V Maltseva	FDV-12 Social networks and health (3/3) Guy Harling	FDV-13 REDES panel: promoting collaboration and new studies in the community (2/2) Francisca Ortiz, José Luis Molina, Isidro Maya Jariego	FDV-14 Networks in history and archaeology (2/3) Paolo Cimadomo, Maria Carmela Schisani, David Zbiral	FDV-20 Organizational networks (4/4) Viviana Amati, Francesca Pallotti	FDV-21 Blockmodeling, community detection and network partitioning (2/2) Aleš Žiberna, Vladimir Batagelj, Carl Nordlund	FDV-23 Multilevel networks Stepan Zaretckii	
	Marijtje AJ van Duijn <i>Outlier detection in ERGM meta analysis</i>	Guy Harling, Farirai Rusere, Michelle Brear and Lenore Manderson. <i>Structure and flow of caregiving support networks for people living with dementia in a resource-constrained rural South African setting</i>	Rosario Fernandez, Carmen Sarabia Cobo, Alejandro García Macías, Abraham Delgado Diego, Aroa Delgado Uría and Carmen Ortego Maté. <i>Las redes de apoyo social en los cuidadores más mayores durante la pandemia</i>	Carla Galluccio, Paolo Cimadomo and Giancarlo G Ragozini. <i>Roman Emperors as Gods. Statistical methods to analyse the spread of Roman Imperial Cult in the Roman Province of Asia</i>	Cornelius Holler <i>Social networks, external and self-assessments of performance in physical education</i>	Hadiseh Safdari and Caterina De Bacco. <i>Anomaly detection and community detection in networks</i>	Steffen Triebel, David Hunter, Rashmi Bomiriya, Alina Kuvelkar and Shweta Bansal. <i>Homophily in bipartite networks</i>	
	Raji Ghawi and Juergen Pfeffer. <i>Robustness of Centrality Metrics in Interaction-Sampled Communication Networks</i>	Martin Anderson, Emily Long and Mark McCann. <i>Social network characteristics associated with physical activity in adults aged 55-75 living in two deprived communities in Scotland</i>	Agnese Capurri <i>The effects of migrant corridors on migrants' self-identification. The case of Dâmbovița (Romania) and Castelló de la Plana (Spain)</i>	Vassilis Evangelidis and Dimitris Grigoropoulos. <i>Modelling regional dynamics and Roman pottery supply using network analysis and GIS: the sanctuary of Kalapodi in central Greece as a case study</i>	Giulietta Zanga, Raffaele Vacca, Gianluca Argentin, Gabriele Ballarino and Filippo Ielmini. <i>Teachers' networks and school processes</i>	Martin G Everett <i>Eigenvector type centrality on disconnected graphs</i>	Christian EG Steglich and Stepan Zaretckii. <i>Network augmentation of population register data</i>	
	Cristina Chueca Del Cerro <i>Networked Polarisation: Simulating Social Networks and Online Filter Bubbles</i>	Amelie Reiner and Lea Ellwardt. <i>Health Discussion Networks among middle-aged and older adults</i>		David Zbiral, Reima Välimäki and Tomáš Hampejs. <i>Memories of heresy: The networks of German Waldensians in the late 14th century in inquisition records from Stettin (1392-4)</i>	Niccolo' Casnici and Marco Castellani. <i>Mapping amateur investors' social networks in Italy: financial platforms and social inequalities in the digital era</i>	Kinga Varga <i>Evaluation of concept mapping in the framework of social network analysis</i>	Robert W Krause <i>QAPCSS - A new Method for Analyzing Cognitive Social Structures</i>	
	Daniel R Cowen, Andreas Flache, Tobias Stark and Vincenz Frey. <i>Who would I like to know? Surface and Deep level Identities in cooperation and friendship</i>			Giuseppe De Luca, Marcella Lorenzini, Maria Carmela Schisani and Giancarlo G Ragozini. <i>Notarized Loans in 18th-19th Century Milan: a Credit Market Equilibrium? A Social Network Approach</i>	Álvaro Vicente <i>A social network model to violent extremist mobilisation: a study of young jihadist sympathizers in Spain</i>	Valeria Policastro, Francesco Santelli and Giancarlo G Ragozini. <i>Community detection analysis with robin on hashtag network</i>	Emmanuel Lazega, Chrystelle Richard and Peng Wang. <i>Whose Norms do Multilevel Networks Promote? The Importance of Vertical Linchpins in the Construction of a New Outsourced Market Institution</i>	
12:20-13:30	Lunch time							

Thursday, September 7								
13:30-15:00 Organised sessions								
	FDV-6 Networks of inter-ethnic relations and integration Carl Nordlund, Kristian Gade Kjelmann	FDV-7 Networks, employment and the labour market Joan M Verd, Oriol Barranco, Stefan Bernhard	FDV-12 Sustainability and Social Network Analysis Stefano Ghinoi, Riccardo De Vita, Cecilia Correggi, Paolo Di Toma	FDV-13 Multimethod approach / mixed method approach Lauri Luoto	FDV-14 Networks in history and archaeology (3/3) Paolo Cimadomo, Maria Carmela Schisani, David Zbiral			
	Bea David , Agnes R Lukacs and Cinderella Komolafe. <i>Roma Undergraduates' partner selection attitudes and social embeddedness</i>	Deniza Alieva , Shukhrat Shadmanov, Sherzod Aktamov and Gulnoza Usmonova. <i>Out of sight, out of mind: effect of changes in the workplace on personal networks</i>	Stefano Ghinoi , Magdalena Langosch and Srinidhi Vasudevan. <i>Diffusion of Circular Economy ideas in Emerging Markets: A Network Analysis</i>	Lexin Chen <i>A New Methodology of Measuring Social Segregation</i>	José Luis Molina , Juergen Lerner and Javier Antón. <i>Martí de Burguès (1756-1809): An exploration of his personal network through his epistolary exchanges</i>			
	Carl Nordlund <i>Integration beyond the natives: the complete network of inter-ethnic family ties in Sweden, 1990-2009</i>	Alejandro González Heras , Joan M Verd and Joan Rodríguez-Soler. <i>The role of social capital in the "discordant" unstable labour market trajectories of individuals with a low educational level. An exploration using mixed methods</i>	Cecilia Correggi and Paolo Di Toma. <i>Sustainable Dynamic Capabilities: a Bibliometric Analysis</i>	Jingbo Ma <i>Analysing Chinese Rural-background students' habitus transformation through Mixed-Method Social Network Analysis: A Critical Realist Approach</i>	Sevinc Kucukoglu <i>A Social Network Analysis of Power Relations in the Ottoman Early Modern Period</i>			
	Nuria Targarona Rifa , Miranda J Lubbers and Alejandro Ciordia. <i>Inter-ethnic relations in personal networks: Shifting the lens toward the majority population</i>		Dennis Nientimp , Jacob Dijkstra and Andreas Flache. <i>Using a social network approach to improve and understand community energy initiative (CEI) participation: A case study</i>	Lauri Luoto <i>Identifying different kinds of network prominence: The case of the New Education Movement</i>				
	Till Hovestadt <i>Socio-Economic Segregation of Students' Social Networks in Highschool</i>
